Subject: Mosquito Fire Station use

Mr. La **France**,

This Email is [in] regards to the actions of the SCPOA Board Members.

On Thursday January 17th the Board Members entered the Fire Station without authorization, I feel it necessary to remind the SCPOA Board of Directors that they only **reserve** the use of the Fire Station, this is not a **guarantee** of use, nor authorization to enter when the Fire Station is secured. **When reserved**, a time for **use** is **secured**, should the Board feel it necessary to have an earlier start time, then they need to amend their scheduled start time, I do not wish to encumber the use of the Fire Station or make things difficult. Should there be a need to change start times, a simple phone call, no later than 1pm week days, or the day of the meeting will suffice.

What is most disconcerting to me though is the attitudes displayed and actions directed towards the District Administrative Representative who came down to open the Fire Station. She arrived at 5:45, only to find the SCPOA Board already in the Fire Station. When asked, the members of SCPOA elevated their voices and berated Fire District Admin Member.

This is unacceptable, so I will state this very **clearly**, Abuse of any kind directed at any Fire District Representative will not happen again! If it does I will immediately revoke SCPOA's **use** of the Fire Station. I believe in good community relationships with all organizations in the Mosquito/Swansboro Community. I will not tolerate the abuse of any member of the Fire District for any **reason**.

Also, being that this is the second time that unauthorized entrance into the Fire Station has occurred, should it occur **once** more, again I will revoke SCPOA's use permit. Fire District Representative will be present to allow access, 15 minutes prior to the start **of** any SCPOA meeting.

Edward M Dwyer  
Fire Chief
